GASOLINE WAS FLOWING freely this morning at the intersection of Route 34 and the Illinois Central railroad, near Raleigh. A 1,725 gallon-capacity compartment of a large trailer was punctured in an unusual accident and the entire gasoline load flowed out on the ground and ran down into a ditch. Robert Keller, driver of the tractor-trailer job, stated he made a stop at the rail-road crossing about 6 a. m. today, then drove the big vehicle across the tracks to continue his run to Harrisburg. At that time he felt the trailer begin to slip away from the tractor. Before he could stop the trailer was completely loose, with the front falling to the

highway. One of the dollies was bent back and punctured the gasoline tank, allowing the 1,725 gallons to flow from the tank. The trailer contained 5,600 gallons of gasoline, in two compartments, with the 3,875 gallons-compartment not damaped. The gasoline, Sinclair brand, was being hauled by Schumasher of Pinckneyville and the driver, Robert Keller, (in inset pointing to point where gasoline is flowing from punctured tank) is from Tamaroa. He received the gasoline in Wood River and the destination was the Sinclair bulk plant in Harrisburg.

#### Elvis Presley Swallows Tooth Cap **During Dance Number**

HOLLYWOOD (U.P) - Teenage "rock 'n' roll" idol Elvis Presley was expected to be released from Cedars of Lebanon Hospital today following removal of a porcelain tooth cap from his right lung.

Doctors said the tooth cap was removed from the lung successfully by bronchoscopy, which is the insertion of a narrow tubular instrument down into the throat. No surgical incision was made.

The singer-guitar player was taken to the hospital Wednesday after he swallowed the cap during a dance number for the film, "Jailhouse Rock," at Metro-Goldwyn-Mayer Studios.

Doctors said the cap apparently slipped down Presley's windpipe and lodged in the lung. They said the singer would be able to return to work in a few days.

He said the program was intended to cut down on price-depressing surplus crops, but there is "every likelihood" the surpluses will pile up farther if the House action stands.

His statement was released while Benson was testifying before the House Agriculture Committee to renew his plea for legislation to let him set farm price supports at lower levels.

The House voted Wednesday, 192-187, to eliminate authority for 1958 acreage reserve program and reduce the long-range conservation reserve section of the soil bank from 450 to 250 million dollars annually. Noting protests that the 1956 reserve program was "costly and wasteful," Benson said the move to eliminate it can "hardly be based on the excuse of economy." Department officials indicated they will ask the Senate to reverse the House action.

## BY LESLIE TURNER Agrees to Try **New Program**

Striving for city improvement as well as economy the Shawneetown city council agreed Monday night to give a new program a try for at least 30 days.

All aldermen voted in favor of Mayor Richard Febuary's proposal that a city maintenance man be employed. John Drone, water and sewer superintendent, was named for this job. He is to be paid at the rate of \$1.00 per hour for time By Al Capp spent working for the city other than at his regular duties with the water and sewer department. He is also authorized to employ a helper when needed.

The maintenance man is to be in charge of the grading and repair of streets, keeping the gutters cleared, and other work along this line that is constantly needed. He is also in charge of the city tractor and mower and is to complete the mowing work as weather per-

The council agreed to purchase two new tires for the city truck and furnish gas and oil when the truck is being used for mainten ance work.

In order to help finance city improvement the council voted to abolish the job of day police which has been paying a salary of \$200 per month. The police night man whose salary was inneeded.

GOV. WHLIAM G. STRATTON has agreed to ask legislative approval of an additional \$2,000,000 capital improvements appropriation for Southern Illinois University, enabling the school to build the home economics building shown above. ## How-to-Buy Hints in New Carpet Booklet

Answers to such questions as 'What type of carpet goes best with Colonial furnishings?" "Should I buy a rug or wall-to-wall carpet?", "Can I afford a carpet?", can be found in the new free booklet just published by the Carpet Institute.

This helpful booklet, titled 'How to Buy Your Carpets and Rugs Wisely" contains 16 pages packed with the newest facts on carpets, and how to go about making a wise selection. It tells how to judge good quality, describes the differences in the various fibers, and points up several ways of purchasing to suit individual needs. An Authoritative Source

The coverage of the subject is broad and authoritative, as the booklet represents the combined experience of twenty of the leading American carpet manufactur-

One valuable section is a guide to room measurement, so that a buyer can compute the approximate total cost when matched with price per square yard of various choices in carpet.

The booklet points out that the square footage of a room should be divided by nine, instead of three (a common error) to obtain the correct total of square yards.

New developments in design, fiber and easy methods of buying have occurred so rapidly in the last few years, the Carpet Institute felt a summation was due the homemaker in 1957. Do you know that carpet can be bought at home, where the final choices can be viewed by the whole family, along with its companion furnishings and colors? This service insures against making a wrong choice. Explains Budget Plans

Do you know, too, that carpet can be purchased on budget payment terms, the same as any other major home investment, so that cost is amortized as carpet is enjoyed?

A reputable dealer, equipped to advise on technical and decorating information, can be much more helpful if the prospective buyer brings him facts to start withsuch as the general decoration theme, the approximate size of area to be carpeted, the size of the family and amount of traffic. Then the dealer can advise on the proper quality of carpet to give

## THE ORACLES OF GOD CHURCH OF CHRIST

215 S. Granger CHARLES WALL ..... MINISTER

THE NEW TESTAMENT CHURCH

MATT. 16:18

There are many ideas about which is the New Testament Church. The only way we will be able to determine it is by looking to God's word.

The church was prophesied in the Old Testament by different prophets. In Isaiah 2:2-3 we notice: "And it shall come to pass in the last days, that the mountain of the Lord's house shall be established in the top of the mountains, and shall be exalted above the hills; and all nations shall flow unto it. And many people shall go and say, come ye, and let us go up to the mountain of the Lord, to the house of the God of Jacob; and he will teach us of his ways, and we will walk in his paths: for out of Zion shall go forth the law, and the word of the Lord from Jerusalem." This is just one of the prophecies concerning the Church of our Lord.

The Lord stated in Matt. 16:18 that he would build his church. The Lord told his apostles to tarry in the city of Jerusalem until they were endued with power from on high. (Lu. 24:49) They waited in Jerusalem as the Lord had instructed them. The power came on the day of Pentecost. (Acts 2:1-2) This is the time that the prophet Isaiah was speaking. It was to begin in the city of Jerusalem. (Isa. 2:3) This was

the time the power of God was to come. These people that heard the gospel on Pentecost didn't put off obeying the things that the apostle Peter was speaking. They were interested because they knew their souls were at stake. Their interest is evident because of the question they asked. They asked, "Men and brethren, what shall we do?" Peter told them to repent and be baptized every one of you in the name of the Lord Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost. (Acts 2:37-38) As the result of their obedience they were added

to the Church. He does the adding himself. This is the day that the Church of Christ was established. We have noticed the prophecy of the church and the fulfillment of them. The Church was not established until Pentecost, because that was the day

to the church. (Acts 2:47) We notice the one that

does the adding. It is the Lord Jesus. We obey the

gospel of Christ then it is his will that we be added

the power came. Come and visit with us at the Church of Christ. "A warm welcome awaits you." If you have a question or comment mail it to the above address.

#### Report Shows Third of Cancer **Victims Cured**

NEW YORK W-The American Cancer Society said in its annual report published today that one third of all cancer victims are now being cured.

"Instead of one in four of those afflicted in the United States being saved from cancer," the society said, "today one in three is being saved."

The society said new success in the battle against cancer is being achieved because improved methods of diagnosis and treatment are more available and people are being persuaded to see their doctors earlier.

It announced generally encouraging statistics showing 800,000 American victims of the disease saved and 700,000 being successfully treated.
